

IWT- G1 Gap Gun for C.D. Stud Welding Systems

FEATURES

- Easy to Use
- Light Weight
- Fully Mechanical
- Heavy Duty Cables
- Adjustable Leg Set
- New Comfort Grip
- MADE IN USA

IWT – G1 Gap Gun for use with tipped studs

Description:

The *IWT-G1* Gap gun is a rugged mechanical gun that alleviates the overheating problems commonly associated with solenoid gap systems. The G-1 is molded from fiber-reinforced plastic and is fully insulated. Standard economic 10mm collets are utilized for varying stud diameters. The ergonomic handle is designed to eliminate operator fatigue.

The G-1 is specifically designed to be easy to set up and use. An adjustable leg set allows for rapid changes of fastener length. Spring pressure is easily adjusted for fastener materials.

Weld range:

#4 - 5/16 DIA. (8mm) with steel, stainless steel, aluminum and brass

Welding process:

Capacitor discharge *LYNX 3 Modular*®

Welding & control cable:

10 ft highly flexible

Adjustable legs:

4.5 inch legs adjustable up to 4 inch

Base ring diameter:

1.25 inch

Total weight:

2 lbs without cables
