LYNX³ QUICKSHOT Stud Welder

DESCRIPTION

The IWT LYNX³ Quickshot Stud Welder with precision voltage control is a top-quality product meeting the highest requirements in operating convenience, low weight, high efficiency, compact design and absolute safety. This unit features a rugged housing design, increased duty cycle, heavy weld cable set, and robust connectors. The LYNX³ Quickshot features IWT's modular design and is fully upgradeable to the LYNX³ Modular 5/16" capacity unit.

SPECIFICATIONS

Weld range:	#4 through 1/4" dia.
Welding process:	Tip ignition, gap or contact
Standard gun:	IWT-G1 or IWT-C1
Power source:	Capacitor battery
Charge capacity:	44,000uF
Charge voltage:	50 – 200V
Weld time:	0.001 – 0.003 sec.
Duty cycle:	up to 20/min.
Mains supply:	115/220 VAC 50/60Hz
Temperature:	0° to 60° C
Weld cables:	#3 x 10ft
Ground cables:	2 x #3 x 10ft
Dimensions:	12" x 5" x 12"
Weight:	18lbs
Color:	Thunder Blue

ACCESSORIES

DESCRIPTION	PART NO.
#4/12ga chuck	1-CH500038
#6/10ga chuck	1-CH500001
#8 chuck	1-CH500022
#10 chuck	1-CH500002
1/4" chuck	1-CH500003
5/16" chuck	1-CH500004
11/32" chuck	1-CH500010

FEATURES

- Designed & built in U.S.A.
- Fastener range #4 through 1/4" (5/16" upgradeable)
- Digital voltage adjustment up and down
- Ergonomic design
- Heavy duty cable set
- Fully adjustable leg set
- Enhanced duty cycle
- Diagnostic LEDs
- Dual ground cables
- Accessory set and Case
- Illustrated manual
- Safety shutdown
